

never **"It's ~~just~~ a joke"**

Masks are strongly recommended indoors for all persons, regardless of vaccination status. Wearing a mask helps protect you and those around you from COVID-19 infection.

Many who choose to wear a mask should feel comfortable with their decision when they are around their friends, classmates, and the public.

It is important for parents and teachers to have a conversation with their children and students to make everyone feel comfortable with their mask choices.
