

# Equal Voices: Inclusive Sexual Health Education for Youth with Intellectual and Developmental Disabilities

## Virtual Education

This interactive training offers participants an opportunity to deepen their understanding of how to support youth with intellectual and developmental disabilities (IDD) in accessing inclusive and equitable sexual health education.

Together, we'll explore common barriers these youth face, discuss how to foster open and respectful conversations, and identify practical ways to advocate for their right to information and safety. Participants will leave with increased awareness, communication tools, and ready-to-use resources from our Equal Voices program to help create inclusive spaces where all youth can learn, grow, and thrive.

**APRIL 14**

### Audience

Professionals who work with youth

2:30PM-4PM PST
