WHO WE ARE

- Publicly funded comprehensive service provider
- Nation's top 20% of health centers providing high-quality patient care
- Integrated Service Delivery, merging social services into physical and behavioral health care in one place

Riverside University Health System Community Health Centers (CHCs) offer a range of **primary and specialty healthcare services** by dedicated healthcare professionals.

Express Care services are available at many CHC locations for patients with non-emergency health issues. In addition, **RUHS Mobile Health Clinic** visits Riverside County's rural and urban communities to provide care for patients who are unable to go to a CHC.

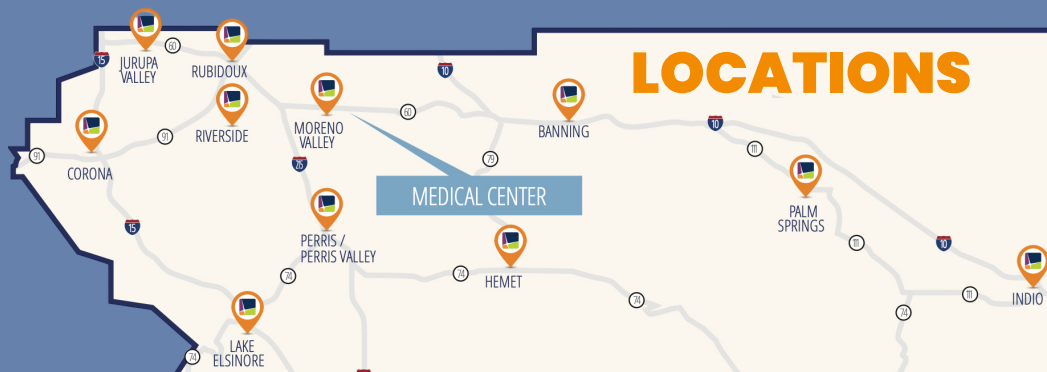

CHCs operate on a sliding fee scale, tailored to individuals' financial capabilities, ensuring access to care for uninsured residents. From preventive care to chronic disease management, patients can expect **comprehensive and personalized treatment plans that prioritize their well-being.**

EXPRESS CARE

Multiple CHC locations offer Express Care services to provide a convenient option for patients who need treatment for non-emergency health issues such as colds and flu, fractures, sprains, immunizations, women's health exams, preventive screenings, STD and pregnancy testing, and more. Patients can walk into Express Care or schedule an appointment.

MOBILE CLINIC

Staffed by licensed healthcare professionals, RUHS operates a 40-foot Mobile Health Clinic with two private, fully equipped exam rooms. The clinic travels to different locations and events to provide care for patients and promote health and wellness across Riverside County.

QUALITY RECOGNITION AWARDS

In 2023, the CHCs were awarded four Community Health Quality Recognition Badges from the Health Resources and Human Services Administration, the federal agency responsible for improving access to health services for uninsured and medically vulnerable populations.

RUHS CHCs are recognized for:

- Providing high-quality patient care
- Enhancing access to services
- Addressing social risk factors
- Advancing health information technology services.
