POVERTY SIMULATION

LIVE A MONTH IN POVERTY IN A FEW HOURS

The Poverty Simulation provides people from all backgrounds an opportunity to walk in the shoes of a low-income family for a few short hours. Participants receive an assigned identity and family profile and experience "one month" of poverty compressed into the real time of the simulation. Afterward, a debriefing occurs where participants share insights of extraordinary vividness and intensity.

The result can be a very special kind of awakening. The power of this unique learning resource is that it creates, like no other method, an insight into the state of *chronic crisis* that consumes so many working poor families.
