Join us to engage in a day of impactful discussions and collaborations as we forge stronger connections across communities, organizations, and government agencies to create a future where resilience is at the core of all that we do. This summit will take a deep dive into unlocking the keys to resiliency through collaboration, advocacy, and civic engagement.

Attendees will explore how racism functions as a public health crisis, the role of nonprofits in advocating for meaningful policy and systems change, and how innovative mapping efforts can strengthen community-based and faith-based organizations. Through panels and interactive discussions, we will work collectively to align efforts, amplify voices, and drive action toward lasting change in 2025 and beyond.
