**CLIMATE HEALTH ACTION COALITION**  
**INLAND EMPIRE**

**Our mission:** To organize, educate and advocate for climate health action for and by healthcare professionals, partners and the community.

**Our objectives are to:**

- Work together with hospitals, health care systems, medical practices, clinics, social service agencies and allied health professionals to take actionable steps towards improved climate health.
- Educate our partners and the community about the effects of climate change from the perspective of health care practitioners while proposing solutions to create balance, equity and environmental support.
- Create focus upon Inland Empire programs and activists who are advancing progress of climate health and innovation.
