1.2 SUMMARY OF PROJECT

1.2.1 Project Description. The Project being bid is a Job Order Contract (hereinafter called JOC) and generally consists of the following: A JOC is a competitively bid, firm fixed priced indefinite quantity contract. It includes a collection of detailed repair and construction tasks and specifications that have established unit prices. It is placed with a Contractor for the accomplishment of repair, alteration, modernization, maintenance, rehabilitation, etc. of buildings, structures, or other real property. Ordering is accomplished by the issuance of Job Orders against the JOC. Each Proposer is responsible for determining the bid factor(s) that most accurately represent their company's ability to perform the contract requirements. The identifying name of the Project is **JOC-BV-01-FLOOR Flooring Services**.

The Contract Documents include a Construction Task Catalog® containing Prepriced Tasks for construction work with preset Unit Prices. All Unit Prices are based on local labor, material and equipment costs and are for the direct cost of construction.

Bidders will submit their Prequalification Questionnaire, all required attachments, Price Proposal, and Qualifications Criteria according to the instructions contained herein.

Bidders will also bid four (4) Adjustment Factors to be applied to the Unit Prices. One Adjustment Factor for performing HCAI work during Normal Working Hours, a second Adjustment Factor for performing HCAI work during Other Than Normal Working Hours, a third Adjustment Factor for performing non-HCAI work during Normal Working Hours, and a fourth Adjustment Factor for performing non-HCAI work during Other Than Normal Working Hours. The same four Adjustment Factors apply to every Pre-priced Task in the Construction Task Catalog®.

A Contract(s) will be awarded to the responsible bidder(s) whose cumulative prequalification and price factor represent the best value to County.

Thereafter, as work is identified, the Contractor will attend a Joint Scope Meeting with the Owner to review and discuss the proposed work. The Owner will prepare a Detailed Scope of Work and issue a Request for Job Order Proposal to the Contractor. The Contractor will then prepare a Job Order Proposal including a Price Proposal, construction schedule, list of proposed subcontractors, and other requested documentation.

The value of the Price Proposal shall be determined by summing the total of the following calculation for each Prepriced Task: Unit Price x quantity x Adjustment Factor, plus the value of all Non-Prepriced Tasks. The Job Order Price shall equal the value of the approved Price Proposal.

If the Job Order Proposal is found to be complete and accurate, the Owner may issue a Job Order to the Contractor.

A Job Order will reference the Detailed Scope of Work and set forth the Job Order Completion Time and the Job Order Price. The Contractor will be paid the Job Order Price for completing the Detailed Scope of Work within the Job Order Completion Time. Extra work, credits, and deletions will be contained in a Supplemental Job Order.

The Contractor, under JOC, furnishes all management, labor, materials, equipment, and required plan check and permits from local jurisdictions needed to perform the work. The Contractor will be required to provide a Superintendent from the Contractor's staff for each Job Order.

The County selected The Gordian Group's (Gordian) Job Order Contracting (JOC) Solution for their JOC program. The Gordian JOC Solution™ includes Gordian's proprietary JOC Information Management System ("JOC IMS"), JOC Applications, construction cost data, and Construction Task Catalog® which shall be used by the Contractor solely for the purpose of fulfilling its obligations under this Contract, including the preparation and submission of Job Order Proposals, Price Proposals, subcontractor lists, and other requirements specified by the Owner. The Contractor shall be required to execute Gordian's General Terms of Use and pay a JOC System License Fee to obtain access to the Gordian JOC Solution™. The JOC System License Fee applies to all Job Orders issued to the Contractor under the terms of the Contract. The JOC System License Fee shall be equal to 1% of the Job Order Price.

The contract may be extended or renewed for two subsequent annual terms with a maximum not to exceed value of six million two hundred ten thousand ninety three dollars (\$6,210,093) or the current maximum value. Annual contracts may be extended or renewed for two subsequent annual terms and a maximum of six million dollars (\$6,000,000) over the subsequent two terms of the contract. The contract will be awarded based on best value. The responses to Part One Qualifications shall be scored using an informed averaging evaluation method. 1. Demonstrated Management Competency
2. Financial Condition
3. Labor Compliance
4. Safety Record
5. Relevant Experience

The qualifications evaluation criteria are listed below with their Quality Points and will be considered in the evaluation of the Proposer's qualification.

CRITERIA	QUALITY POINTS
Demonstrated Management Competency: This includes the experience, competency, capability, and capacity of the proposed management staffing to complete projects of similar size, scope, or complexity	25
Financial Condition: The financial resources needed to perform the contract including proposer's capacity to obtain all required payment and performance bonds, and liability insurance	10

Relevant Experience: This includes the proposers experience, competency, capability, and capacity to complete projects of similar size, scope, or complexity.	40
Maximum Possible Quality Points Score	100

Price Evaluation Criteria

After County determines the total quality point scores of the Part One Qualifications, County will multiply Factor 1 by .60, Factor 2 by .20, Factor 3 by .10, and Factor 4 by .10. These four numbers will be rounded to the nearest 4 decimal places, then added together for a composite factor. The bidder's total composite factor will then be multiplied by the total contract value. This amount will be considered the Bidder's Price Bid. The Bidder's price bid will then be divided by that Bidder's total quality points score for best value evaluation to determine that Bidder's resulting price per quality point. The bid with the lowest resulting price per quality point will be deemed to represent the highest ranked, best value bid..

SAMPLE OF CALCULATION OF BEST VALUE BID*:

Adjustment Factors:			Multiplied by	Weighting	
1.	HCAI work, Normal Working Hours	1. 2 0 3 4	X	.60	= .7220
2.	HCAI work, Other than Normal Working Hours	1. 2 6 5 0	X	.20	= .2530
1.	Non-HCAI work, Normal Working Hours	1. 2 0 3 4	X	.10	= .1203
2.	Non-HCAI work, Other than Normal Working Hours	1. 2 6 5 0	X	.10	= .1265
Added together equals the Composite Factor =					1.2218

Composite Factor is multiplied by total contract value: $1.2218 \times \$4,500,000 = \$5,498,100$

Bidders Price Bid = \$5,498,100

$\$5,498,100 \div 85$ (sample total quality points score) = \$64,683

Bidder's resulting price per quality point = \$64,683

The bid with the lowest resulting price per quality point will be deemed to represent the highest ranked, best value bid.

*All figures, scores, and Adjustment Factors in this sample calculation are for illustrative purposes only and do not represent actual or expected Adjustment Factors.
